

Tamiami Village & RV Park Directory Correction Form

Resident Name: _____

Village Address: _____

Date: _____

The information found in our Tamiami Village & RV Park Directory is based on our office records. The deadline for all information to be updated and included in the directory is September 1st.

If you have your phone service terminated when you go north for the summer and a new number reassigned in the fall, please inform the office when you turn in your Northern Address & Emergency contact Form before you leave. We can get the new number in the directory if this information is given to us before the deadline. Otherwise we will have no number listed for you.

We can also list cell phone numbers, as many residents use their northern cell phones during the winter. If there is an error or omission in the current directory, please fill out this form and return it to the office. Please do not phone in your changes because we need a hard copy with your signature in your file.
